### I. Product Description

Market expectation of the Investor Price increase in the Underlying.

#### **Product description**

The Tracker Certificate replicates the price movements in the Underlying (adjusted by the Units<sub>t</sub>, the Management Fee and, as the case may be, the FX Rate) and is therefore in terms of risk comparable to a direct investment in the Underlying. **The Underlying is a dynamic, discretionarily managed Index.** At the Redemption Date, the Investor will receive a Cash Settlement in the Settlement Currency, as further described under Redemption.

#### Index description

The Underlying is an actively managed index (the "Index") which is discretionarily managed by the Index Sponsor and calculated by the Index Calculation Agent. The components of the Underlying (the "Components") may be rebalanced on a regular basis. The Index Sponsor determines and is responsible for the composition of the Underlying and may add, replace or remove Components in accordance with a set of predefined index guidelines set out in the index rule book "FuW-Risk-Portfolio Index", Version ID ADUPX, dated 03.01.2019 (the "Index Rule Book").

Objective: The FuW-Risk-Portfolio Index aims to track the sample portfolio "FuW-Risk-Portfolio" regularly published in the Swiss newspaper Finanz und Wirtschaft (www.fuw.ch). The Index replicates investments in undervalued higher risk Swiss market stocks (large, mid and small caps) across all industry sectors and with a short- to medium-term investment horizon. Occasionally, the Index Sponsor may also allocate in exchange traded funds with focus Switzerland. The Index is rebalanced on an approximately quarterly basis (the Index Sponsor reserves the right to ad-hoc rebalancings due to market movements, news flow, change in fundamentals etc.). Allocation decisions are done by the Index Sponsor using a proprietary model based on a combination of fundamental and technical analysis and with the aim to achieve a better risk and return profile compared to the Swiss Performance Index®. The Index Sponsor may decide to only replicate part of the FuW-Risk-Portfolio published in the newspaper Finanz und Wirtschaft in the Index and any replication in Index will be done on a delayed basis. Investors should be aware that the performance of this Product may diverge from the performance of the FuW-Risk-Portfolio.

Universe: The Index universe consists of eligible components and may include Shares, Funds, Cash Instruments as determined by the Index Sponsor and subject to the restrictions defined in the Index Rule Book.

Restrictions: The Index may not maintain short positions. A maximum of 50 Components may be included in the Index. At no time the Index may have an Exposure of more than 50% to Interest Bearing Instruments. More detailed information can be found in the Index Rule Book.

Rebalancing: The Index Sponsor may submit a maximum of 12 rebalancing requests per year.

Distributions: Net distributions with respect to Components (after deduction of any expenses and taxes) will lead to an adjustment of the Index (as specified in the Index Rule Book).

The Index represents a hypothetical portfolio. There is no obligation on the Index Calculation Agent, the Issuer or any other party to purchase and/or hold any Components of the Index and there is no actual portfolio of assets to which any person is entitled or in which any person has any ownership interest. The Index is merely comprised of Components, the performance of which will be used as a reference point for the purposes of calculating the value of the Index. The Issuer shall be free to choose how to invest or further proceed with any capital raised by the issuance of any of the Certificates.

References to any rebalancing of the Index or addition, adjustment, substitution, replacement or removal of Components should not be construed as imposing an obligation on the Issuer, the Index Calculation Agent or any person actually to acquire or dispose of any

securities, investments, assets or other property but are references to the change in, and relate solely to the calculation of, the value of the Index, which is relevant for the determination of any amount payable in respect of the Certificate.

Upon request, the Index Rule Book and the latest composition of the Index are available free of charge from the Lead Manager (Leonteq Securities AG, Europaallee 39, 8004 Zurich, Switzerland or termsheet@leonteq.com).
