Investors do not benefit from the specific investor protection provided under the CISA.

I. Product Description

Product description

The Tracker Certificate (the "Certificate") replicates the price movements in the Underlying (adjusted by the Units, the Management Fee, the Calculation Agent Fee, any expenses and taxes, and, as the case may be, the FX Rate) and is therefore in terms of risk comparable to a direct investment in the Underlying. At the Redemption Date, the Investor will receive a Cash Settlement in the Settlement Currency, as further described under Redemption.

Index description

The Underlying is a dynamic, actively managed index (the "**Index**") which is discretionarily managed by the Index Sponsor and calculated by the Index Calculation Agent. The components of the Underlying (the "**Components**") may – subject to Index Calculation Agent's veto right – be rebalanced by the Index Sponsor on a regular basis. The Index Sponsor determines and is responsible for the composition of the Index and may add, replace or remove Components in accordance with a set of predefined rules set out in the Index Rule Book "FuW-Eco-Portfolio Index", Version ID 8JSS5, dated 29.10.2020 (the "**Index Rule Book**").

Objective: The FuW-Eco-Portfolio Index tracks the sample portfolio "FuW-Eco-Portfolio" which is regularly published in the Swiss newspaper "Finanz und Wirtschaft" (www.fuw.ch). The Index replicates investments in companies that pursue a CO2 reduction strategy. In addition to ecological criteria, companies must also meet financial criteria. These include an attractive valuation and solidity in the form of a low level of debt and attractive profitability. The Index is rebalanced approximately every quarter (the Index Sponsor reserves the right to rebalance on an ad-hoc basis due to market movements, news flow, changes in sustainability criteria, etc.). Allocation decisions are made by the Index Sponsor using a proprietary analysis, replacing companies that have taken a step backwards in terms of sustainability or whose potential in terms of financial performance and price has been exhausted. The Index Sponsor may decide to only replicate part of the FuW-Eco-Portfolio published in the newspaper 'Finanz und Wirtschaft' in the Index and any replication in the Index will be done on a delayed basis. Investors should be aware that the performance of this Product may diverge from the performance of the FuW-Eco-Portfolio.

Universe: The Index universe consists of eligible Components and may include Cash Instruments, Shares as determined by the Index Sponsor and subject to the restrictions defined in the Index Rule Book.

Settlement of Components: Components may be settled within the Index other than in cash. However, unless otherwise stated therein, there will be no delivery of Components to the Investors other than in cash.

Distributions: Net distributions with respect to Components (after deduction of any expenses and taxes) will lead to an adjustment of the Index (as specified in the Index Rule Book).

The Index represents a hypothetical portfolio. There is no obligation on the Index Calculation Agent, the Issuer or any other party to purchase and/or hold any Components of the Index and there is no actual portfolio of assets to which any person is entitled or in which any person has any ownership interest. The Index is merely comprised of Components, the performance of which will be used as a reference point for the purposes of calculating the value of the Index. The Issuer shall be free to choose how to invest or further proceed with any proceeds of the issuance of any of the Certificates.

References to any rebalancing of the Index or addition, adjustment, substitution, replacement or removal of Components should not be

construed as imposing an obligation on the Issuer, the Index Calculation Agent or any person actually to acquire or dispose of any securities, investments, assets or other property but are references to the change in, and relate solely to the calculation of, the value of the Index, which is relevant for the determination of any amount payable in respect of the Certificate.

Upon request, the Index Rule Book and the latest composition of the Index are available free of charge from the Lead Manager (Leonteq Securities AG, Europaallee 39, 8004 Zurich, Switzerland or termsheet@leonteq.com).
