#### TAXATION SWITZERLAND

**Swiss Federal Stamp Duty** For Swiss stamp duty purpose, the Product is treated as analogous to a bond. Therefore, secondary market transactions are in principle subject to Swiss stamp duty (TK22).

**Swiss Federal Income Tax (for private investors with tax domicile in Switzerland)** For tax purposes this Product is classified as transparent, where the majority of the return of the bond part is in the form of a discount or of one payment on the Redemption Date (IUP). Therefore, for private Investors with tax domicile in Switzerland holding the Product as part of their private property, the increase of the value of the bond part (according to the “Modifizierte Differenzbesteuerung”) at sale or at redemption is subject to the Federal Direct Tax. The present value of the bond part at issue is the Bondfloor per unit. An Investor who buys the Product at issuance and holds it until Redemption is taxed on the difference between the Bondfloor at the Issue Date and the Bondfloor at the Redemption Date.

However, any gain derived from the option is considered as capital gain and is therefore not subject to the Federal Direct Tax for such taxpayers.

The tax treatment regarding the cantonal and communal income taxes can differ from the tax treatment regarding the Federal Direct Tax. But in general the income tax treatments are corresponding.

**Swiss Withholding Tax** The Product is not subject to the Swiss withholding tax.

On 1 January 2017, Switzerland has implemented the Automatic Exchange of Information in Tax Matters (“AEOI”) with the EU and Australia, Jersey, Guernsey, Isle of Man, Iceland, Norway, Japan, Canada and South Korea. Switzerland is also negotiating the introduction of the AEOI with other countries. In this context, the EU Savings Tax for Swiss paying agents and the Final Withholding Tax with UK and Austria was repealed.

The tax information is a non-binding summary and only provides a general overview of the potential Swiss tax consequences linked to this Product at the time of issue. Tax laws and tax interpretation may change at any time, possibly with retroactive effect.

Investors and prospective Investors are advised to consult with their tax advisers with respect to the Swiss tax consequences of the purchase, ownership, disposition, lapse or exercise or redemption of a Product in light of their particular circumstances. The Issuing Parties and the Lead Manager hereby expressly exclude any liability in respect of any possible tax implications.

Information with regards to bond floor taxation

Updated bondfloor information, if a bondfloor is applicable to the Product (according to “Product Details” and “Taxation Switzerland” herein), can be found on the following web page of the Swiss Federal Tax Administration (FTA): [www.ictax.admin.ch](http://www.ictax.admin.ch). The Investor must be aware that for tax purposes the value of the bond floor is converted into Swiss Francs (CHF) at inception/purchase as well as at sale/redemption of the Product, in case the Product is denominated in another currency than CHF. Thus, the Investor is exposed to the foreign exchange risk with regard to the taxable income calculation and thus also the withholding tax calculation, if applicable. However, withholding tax on the bondfloor only applies if the Bondfloor at redemption (in %) is greater than the Bondfloor at issuance (in %).

#### PRODUCT DOCUMENTATION

The Termsheet which will be available no later than on the Issue Date, as well as the Final Termsheet include the information required for a definitive simplified prospectus pursuant to article 5 the Collective Investment Schemes Act (“CISA”), as such article was in effect immediately prior to the entry into effect of the Swiss Financial Services Act (“FinSA”), but not a prospectus pursuant to article 40 of the FinSA or article 1156 of the Swiss Code of Obligations. No key information document according to article 60 of the FinSA or any equivalent document under the FinSA has been or will be prepared in relation to the Products. No prospectus has been reviewed or approved by a Swiss reviewing body pursuant to article 52 FinSA, and the documentation prepared in relation to the Products may not comply with the disclosure requirements applicable to a prospectus approved by such a reviewing body under the FinSA. For investors in the EEA: A base prospectus approved by the relevant competent authority and passported to relevant host member states allows the public offer of the Product in certain member states. Potential investors should read the Base Prospectus, as supplemented from time to time and the final terms before subscribing to the Product. This document contains a summary of information of the Product and is for information purposes only. Only the Final Terms together with the respective Base Prospectus, as supplemented from time to time, as well as a possible summary of the individual issue form the documentation of the Product (the “Product Documentation”); therefore the Final Terms should always be read together with the Base Prospectus as well as a possible summary of the individual issue.

Notices to Investors in connection with this Product shall be validly given in accordance with the terms and conditions. Notices to investors in Switzerland relating to the Issuing Parties will be published under the section “About Leonteq” on [www.leonteq.com](http://www.leonteq.com) and/or on the web page of the respective Issuing Party.

#### Credit Risk of Issuing Parties

The Investor's exposure to the credit risk of the Issuer of this Product is only mitigated due to collateralization. In order to collateralize this Product, securities have been deposited at SIX SIS Ltd in favour of SIX Swiss Exchange Ltd.
